

# Whitening Packages to Match Your Busy Lifestyle

## ■ Grab and Go

No appointment necessary! Simply place our preloaded whitening trays onto your teeth for a comfortable fit. The thin membrane tray adheres to the teeth and remains securely in place for the 60 minute wear time. Yes, only 60 minutes, once a day. It's that easy.

## ■ Take Home Whitening

Whiten in the comfort of your own home. A whitening gel is placed inside clear, flexible, plastic, custom-fitted trays, which are worn over the teeth to bed each night, for about two weeks. Brush with the included toothpaste to maintain your beautiful white smile.

## ■ Accelerated Whitening

Let us do half the work for you. Spend about 60 minutes in our office with booster gel placed on your teeth, which will accelerate the process and get most patients to the halfway point in their whitening. Then wear the custom-fitted trays to bed each night for about 5 days, or until the desired result is achieved. Come back within one year and receive a free additional session!

## ■ Ultimate Whitening

You get it all! Spend 60 minutes in our office with booster gel on your teeth, then wear the custom-fitted trays to bed for about a week. Come back within one year and receive a FREE additional session and a FREE refill kit for the custom whitening trays!
